  - (2) How many information sessions for procurers has the Commissioner run since being appointed.
- 336 MS WOOLDRIDGE** — To ask the Minister for Local Government (for the Minister for Jobs, Innovation and Trade): In relation to the Applied Artificial Intelligence Institute at Deakin University: Did the University receive support from the Government, and if so, what was the value and nature of that support.
- 337 MS WOOLDRIDGE** — To ask the Minister for Local Government (for the Minister for Jobs, Innovation and Trade): In relation to the expansion of Trajan:
- (1) What is the nature of the support provided.
  - (2) What is the value of the support provided.
  - (3) When will the 40 new jobs be created.
- 338 MS WOOLDRIDGE** — To ask the Minister for Local Government (for the Minister for Jobs, Innovation and Trade): In relation to the statement on the Invest Victoria website, found at <http://www.invest.vic.gov.au/opportunities/technology/melbourne-s-strengths-in-technology>, that “over one-third of Australia's ICT postgraduates studied at a Victorian university”:
- (1) What is Victoria's market share of ICT postgraduates.
  - (2) Could you provide a description of the data set that has been relied upon for the statement above, noting that the link provided in footnote 1 on the website is broken.

*(Notice received 2 May 2019)*

- 339 MR RICH-PHILLIPS** — To ask the Special Minister of State (for the Treasurer): How much has the State Revenue Office (SRO) expended on legal costs for matters related to individual SRO staff or former SRO staff, in each of the following years —
- (a) 2015-16;
  - (b) 2016-17;
  - (c) 2017-18; and
  - (d) 2018-19 to date.
- 340 MR RICH-PHILLIPS** — To ask the Special Minister of State (for the Treasurer): How many proceedings initiated at the Victorian Civil and Administrative Tribunal by individual State Revenue Office (SRO) staff or former SRO staff (or their representatives), has the SRO been a party to for the years in each of the following years —
- (a) 2015-16;
  - (b) 2016-17;
  - (c) 2017-18; and
  - (d) 2018-19 to date.

- 341 MR RICH-PHILLIPS** — To ask the Special Minister of State (for the Treasurer): How many barristers or solicitors have been briefed or engaged by or on-behalf of the State Revenue Office (SRO) on matters related to individual SRO staff or former SRO staff in each of the following years —
- (a) 2015-16;
  - (b) 2016-17;
  - (c) 2017-18; and
  - (d) 2018-19 to date.
- 342 MR RICH-PHILLIPS** — To ask the Special Minister of State (for the Treasurer): How many proceedings initiated at the Fair Work Commission by individual State Revenue Office (SRO) staff or former SRO staff (or their representatives), has the SRO been a party to in each of the following years —
- (a) 2015-16;
  - (b) 2016-17;
  - (c) 2017-18; and
  - (d) 2018-19 to date.
- 343 MR RICH-PHILLIPS** — To ask the Special Minister of State (for the Treasurer): How many proceedings initiated at the Supreme Court by individual State Revenue Office (SRO) staff or former SRO staff (or their representatives), has the SRO been a party to in each of the following years —
- (a) 2015-16;
  - (b) 2016-17;
  - (c) 2017-18; and
  - (d) 2018-19 to date.
- 344 MR RICH-PHILLIPS** — To ask the Special Minister of State (for the Treasurer): How many complaints lodged with the Victorian Equal Opportunity and Human Rights Commission by individual State Revenue Office (SRO) staff or former SRO staff (or their representatives), has the SRO been a respondent to in each of the following years —
- (a) 2015-16;
  - (b) 2016-17;
  - (c) 2017-18; and
  - (d) 2018-19 to date.

(Notice received 28 May 2019)

- 373 MR HAYES** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): Is the Minister aware of the 16 January 2019 article by Mr Patrick Hatch in *The Age* titled *Essendon Airport DFO plans call safety planning into question*.
- 374 MR HAYES** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): Has the Minister investigated the claim in the report by the Australian Federation of Air Pilots that the DFO Essendon complex was built closer to the runway than provided by international and Australian safety guidelines and is a “significant safety compliance anomaly”.
- 375 MR HAYES** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to Essendon Airport and the DFO Essendon complex: Is it correct that —
- (a) the International Civil Aviation Organization recommends a minimum 300 metre runway strip width, so that there is a 150 metre buffer zone either side of the runway’s centre line; and
  - (b) DFO sits 128 metres from the centre of the runway.

- 376 MR HAYES** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to Essendon Airport and the DFO Essendon complex: Is it correct that —
- the Civil Aviation Safety Authority (CASA) requires that a detailed safety case be prepared and all relevant stakeholders consulted before a runway strip width can be less than 300 metres, and if so, did this happen in the case of Essendon Airport and the DFO buildings;
  - the Federal Government approved the DFO development on condition that the airport consult with CASA about its plans and comply with its safety requirements; and
  - CASA advised the Airport that “gathering the information required for the authority’s assessment of whether every item in a Draft Master Plan will be compliant with civil aviation safety requirements would be time-consuming and expensive”.
- 377 MR HAYES** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): Was the Victorian Government consulted at the time the former Federal Transport Minister approved the DFO Essendon building on the condition that it did not adversely impact on “navigation aids or operational activities” at Essendon Airport.
- 378 MR HAYES** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): Is there a potential safety risk if buildings are built too close to runways, particularly in the light of the February 2017 crash of a Beechcraft King Air light aircraft shortly after take-off into the southern end of the DFO Essendon complex, which killed all five people on board.
- 379 MR HAYES** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): Given that Essendon Airport is home to Victoria’s emergency services air wings, has the Minister been consulted concerning any proposal to further narrow the runway strip, and if so, what response has the Government provided to either Essendon Airport or the Civil Aviation Safety Authority concerning this proposal.
- 380 MR HAYES** — To ask the Minister for Training and Skills: In relation to the Minister’s answer to Question on Notice No. 92, which stated that Government funded Registered Training Organisations “are providing practical training that will lead to positive employment, social and economic outcomes”: Does the Government monitor the employment, social and economic outcomes that arise from the training, and if so, can the Minister make this information available.
- 381 MR HAYES** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the recently released Victorian State of the Environment Report 2018: Is the Minister aware that this Report states at page 111 that native vegetation continues to be lost at approximately 4,000 hectares per year, creating fragments and degraded habitats across Victoria and increasing the risk, vulnerability and exposure of native animals and plants.
- 382 MR HAYES** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the recently released Victorian State of the Environment Report 2018: Is the Minister aware that this Report states at page 112 that Victoria has the highest number of threatened species by sub-region in Australia and that the report calls for protecting native vegetation to half habitat loss and reduced habitat fragmentation and degradation, especially on private land.
- 383 MR HAYES** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the Auditor-General’s Report on Meeting Obligations to Protect Ramsar Wetlands, September 2016: Is the Minister aware that the report found that some of our Ramsar sites are not being effectively managed and protected from ecological decline.

- 384 MR HAYES** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the Mordialloc Freeway:
- (1) What investigations has the Minister conducted into the likely impact of the Mordialloc Freeway on the Ramsar listed Edithvale Wetlands, and in particular, on the Australasian Bittern, which is listed as threatened under the *Fauna and Flora Guarantee Act 1988*.
  - (2) Will the Minister ensure that the Mordialloc Freeway does not proceed if it is found to have a detrimental effect on the Australasian Bittern or other endangered species.
- 385 MR LIMBRICK** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the recent rock climbing bans in the Grampians:
- (1) What is the source for the claim that there were 80,000 rock climbers visiting the Grampians in 2018.
  - (2) How does Parks Victoria define a new 'site' for climbing.
  - (3) What is the source for the claim that there are 8,000 rock climbing sites in the Grampians and that 6,000 of these were discovered after 2003.
- 386 MR DAVIS** — To ask the Minister for Roads (for the Minister for Public Transport): In relation to the High Capacity Signalling Trial - Stage 1 (metropolitan various) Project:
- (1) Given that footnote (b) on page 124 of the 2017-18 Budget Paper No. 4 states that "Components of this project [have] been completed, with remaining funding transferred to Metro Tunnel (metropolitan various)", what was the total investment or spend on this project.
  - (2) What components of this project were completed.
  - (3) What components of this project were not completed.
  - (4) How much of the initial \$55.62 million of capital funding was re-allocated to the Metro Tunnel Project.
  - (5) Was funding from this project re-allocated to any other project, and if so, to which project and how much was re-allocated.
  - (6) Given that high capacity signalling is critical to increasing commuter capacity on the metro network, when will the Government properly fund and complete the project on the Sandringham line.
- 387 MR HAYES** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the Western Grassland Reserves:
- (1) In 2012, did the First Assistant Secretary of Environment Assessment and Compliance of the Federal Department of Environment, Mr Dean Knudson, propose that the Victorian Department of Sustainability and Environment work with his Department to develop clear and transparent options to extend the acquisition timeframe for the Western Grassland Reserves, and if so —
    - (a) what action did the Department of Sustainability and Environment take in response to this proposal from the Federal Department of Environment; and
    - (b) if no action was taken from the Federal Department of Environment, is the Victorian Government in danger of breaching the legally binding agreement that it would create two grassland reserves totalling about 15,000 hectares by 2020, given to the Federal Government as part of the Melbourne Strategic Assessment process conducted under the *Environment Protection and Biodiversity Conservation Act 1999 (Cth)*.
  - (2) Has the Federal Government provided any advice to the Victorian Government on the extension of the acquisition timeline for the Western Grassland Reserves, and —
    - (a) if so, has the Government made any decision to vary the acquisition timeline; and
    - (b) if not, is it correct that Victoria has not been released from its 2009 commitment to the Melbourne Strategic Assessment Program to purchase all land for the Reserves by 2020.
  - (3) Given the slow rate of income from offsets and habitat compensation fees for purchasing land for the Western Grasslands, why has the Government not allocated

money from Consolidated Revenue in order to keep its Grasslands Reserves undertaking.

- (4) Is it correct that a survey done for Victoria's then Department of Sustainability and Environment in 2012 found that Serrated Tussock covered up to 90 per cent of some areas, and that much of the land proposed for acquisition is infested with noxious weeds, and if so —
  - (a) how much will the Government spend to eradicate these weeds; and
  - (b) how long will it take.
- (5) Will the Government seek advice from community conservation organisations about its plans for land purchase and management for the Western Grassland Reserves, and if so, when.

**388 MR HAYES** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the *Melbourne Strategic Assessment (Environment Mitigation Levy) Bill 2018* that was not introduced into the Parliament in 2018:

- (1) What was the purpose of this proposed legislation.
- (2) Who were the levy or levies proposed to be applied to and for what purposes was the money raised intended to be spent.

**389 MR HAYES** — To ask the Special Minister of State (for the Minister for Energy, Environment and Climate Change): In relation to the advice concerning an inquiry into the protection of native grasslands provided by the then Shadow Minister for the Environment, the Hon Lisa Neville MP, to a grasslands campaigner in 2014 that "such an inquiry is in fact in our platform and will be one of the things we will be doing if we get to Government. It was in fact one of the priority policies that came out of our policy committee": When does the Government intend to give effect to this priority policy.

**390 MR DAVIS** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to the Sunshine Avenue to Calder Freeway component of the M80 Ring Road upgrade project:

- (1) How much of the \$300 million capex funding has been transferred to output for corporate costs which were not budgeted for in the first instance.
- (2) What is the total actual output expenditure to 30 June 2018 and the budgeted output expenditure for 2018-19 for the project.
- (3) What is the total output cost allocated for this project over the forward estimates.
- (4) What is the State component of total output costs —
  - (a) actual to date; and
  - (b) over the forward estimates.
- (5) What is the Federal component of total output costs —
  - (a) actual to date; and
  - (b) over the forward estimates.

**391 MR DAVIS** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to the Sunshine Avenue to Calder Freeway component of the M80 Ring Road upgrade project:

- (1) What was the \$0.1 million in 2018-19 that was allocated in output costs in the 2015-16 Budget intended to be spent on.
- (2) Given the 2016-17 Budget noted a \$150 million Federal contribution to the project, the 2017-18 Budget noted that the \$300 million Total Estimated Investment (TEI) did not include corporate costs and in the 2017-18 Budget the TEI was cut by \$5.88 million:
  - (a) Can the Minister confirm the movement of \$5.88 million from capital to output for the project.
  - (b) What were the unplanned, unanticipated, unfunded corporate costs of the \$5.88 million for this project in 2017-18.
- (3) Given the TEI was further cut from \$294.1 million to \$293.7 million in the 2018-19 Budget, again citing corporate costs, what were the additional, unanticipated, unfunded corporate costs in 2018-19.

- (4) Why does this project have \$6.13 million of unplanned and unfunded corporate costs, to date and why has the budget and funding for this project been so poorly managed.

**392 MR DAVIS** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to the High Capacity Metro Trains (metropolitan various) Project:

- (1) What are the milestone delivery dates for this project and what is due to be delivered at each milestone.
- (2) What are the milestone payments and to whom will each of them be paid.
- (3) Under what circumstances can milestone payments be withheld by the Government.
- (4) What is the forecast date of practical completion for this project.
- (5) What is the forecast date of financial close for this project.

**394 MR DAVIS** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to the output costs of the 2015-16 Bus Package:

- (1) Does the output cost include annual indexation, and if so —
  - (a) what is the percentage indexation; and
  - (b) what is the dollar amount per —
    - (i) year;
    - (ii) additional route,
    - (iii) expanded route,
    - (iv) service restored; and
    - (v) missing link fixed.
- (2) If annual indexation has not been factored into the output cost, how have these costs been met by the service provider.

**395 MR DAVIS** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to the Chandler Highway Upgrade (Alphington, Kew) Project:

- (1) What was the actual capital expenditure of the project to 30 June 2018 as opposed to the estimated expenditure published on page 26 in 2018-19 Budget Paper No. 4.
- (2) Was there a revised estimated capital expenditure in the 2018-19 from the published estimated expenditure of \$32.536 million, and if so, what was the revised estimated capital expenditure.
- (3) What was the total actual output expenditure of the project to 30 June 2018.
- (4) What was the budgeted output funding for the project in 2018-19.
- (5) Given that in 2018-19 there was originally no allocation of output money for the Project, was the cut to the Total Estimated Investment (TEI) from \$110.1 million to \$109.721 million, a transfer of funds from capital to output, to cover unplanned, unbudgeted corporate costs in 2018-19.
- (6) Given that the 2018-19 Budget Paper No. 4, footnote (I), on page 29, notes that the TEI was \$100 million due to a project saving of \$9.706 million, were all components of the original scope of the project delivered, and if not, which components were not delivered.
- (7) Relative to the original costings of the project, where were costs overestimated to a total of \$9.706 million, and where has that money been redirected
- (8) Given that the project was high value, high-risk and subject to a much higher level of oversight and scrutiny, how did the Government get the budget for the project wrong.

**396 MR DAVIS** — To ask the Minister for Roads (for the Minister for Transport Infrastructure): In relation to the High Capacity Metro Trains (metropolitan various) Project:

- (1) Given the 2015-16 Budget there was an allocated asset of \$1.3 billion and output funding of \$2.8 million for this Project, the 2016-17 Budget had \$875 million allocated in capital funding for additional trains under a separate project and the 2018-19 Budget combined the two projects with a Total Estimated Investment (TEI) of \$2.176 billion, what are the capital and output cost budget phasings over the forward estimates for the combined project.
- (2) What was the actual capital and output expenditure for the Project that appears in the 2018-19 Budget Paper No. 4, on page 134.

- (3) What was the budgeted capital and output expenditure for the Project that appears in the 2018-19 Budget Paper No. 4, on page 134.
- (4) Why was the TEI for the project not cut by \$248.281 million when the TEI for the Caulfield to Dandenong project was increased by \$248.281 million through reallocation from the High Capacity Metro Trains (metropolitan various) project in the 2017-18 State Capital Program.
- (5) In relation to paragraph (4), why was misleading and inaccurate information about the true financial position of the Department of Transport and infrastructure spending in Victoria published.
- (6) Does the Minister have confidence in the Department of Transport to manage and deliver large-scale infrastructure projects on time and on budget.

**397 MR DAVIS** — To ask the Minister for Roads (for the Minister for Public Transport): In relation to the Caulfield to Dandenong conventional signalling and power infrastructure upgrade funded in 2015-16:

- (1) Given that the 2015-16 Budget published a completion date for the second quarter of 2018-19, but the 2016-17 Budget published a completion date for the fourth quarter of 2018-19, what was the cause of the delay.
- (2) Given that the 2017-18 Budget noted an increased in the Total Estimated Investment (TEI) from \$360 million to \$608.3 million, what are the deliverables, project milestones, and the dates for the project milestones for the works on the Caulfield to Dandenong train line.
- (3) What are the capital budget allocations for 2017-18 and over the forward estimates by year, for this project post the change in TEI.
- (4) Given that the 2017-18 Budget shows a published completion date for the second quarter of 2018-19, how was the delay, identified in the 2015-16 Budget, rectified.
- (5) Given that the 2018-19 Budget shows a completion date for the second quarter of 2019-20, what was the cause of the expected 12 month delay on project delivery and how is this being managed to prevent further delays.
- (6) As the Project has no budget allocation for corporate, administrative or project running costs, who is —
  - (a) managing the day-to-day delivery of the project; and
  - (b) what are the costs by activity over the life of the project and who is paying those costs.

**398 MR DAVIS** — To ask the Minister for Roads (for the Minister for Public Transport): In relation to the Caulfield to Dandenong conventional signalling and power infrastructure upgrade funded in 2015-16 and reallocation of funds:

- (1) Is it a fact that other capital project's budgets have been reallocated, such as the \$248.281 million from the High Capacity Metro Trains Project, because the Project is over budget and a year late.
- (2) Was only the High Capacity Metro Trains Project's budget reallocated or are there other projects, and if so, which projects have had funding reallocated and by how much.

**399 MR DAVIS** — To ask the Minister for Training and Skills (for the Minister for Police and Emergency Services): In relation to the incident on 11 May 2019 at Hares and Hyenas Bookstore in Fitzroy that has now been referred to the Independent Broad-based Anti-corruption Commission: Can the Minister confirm that —

- (a) the incident was recorded by the police involved, and if so, that the recording shows police did announce their presence and indicate the purpose of their raid; and
- (b) Victorian Police LGBTIQ+ liaison officers have been involved in assessing this case and that they have confirmed that neither the sexual orientation of the occupants or the business' prominence within the LGBTIQ+ community played a role in Victoria Police's decision to raid the premises.

  - What is the threshold at which repayments will be triggered for all grants listed in paragraph (1).

**430 MRS MCARTHUR** — To ask the Minister for Training and Skills (for the Minister for Education): In relation to Chilwell Primary School:

- (1) Why did the Victorian School Building Authority (VSBA) choose to pursue the refurbishment of the old south wing of Chilwell Primary School rather than the construction of a new two-story building, which would have been both within budget and the preference of the school community.
- (2) Does the Minister agree with the then Acting Minister for Education, the Hon Gayle Tierney MLC's response to my constituency question of 19 March 2019, that claimed the construction of the preferred two-story building was "\$3.102 million beyond the amount allocated in the State Budget" despite the quote for the two-story building to the school council being \$2.1692 million.
- (3) Does the Minister agree with the then Acting Minister for Education, the Hon Gayle Tierney MLC's response to my constituency question of 19 March 2019, that claimed the VSBA staff had "continuously engaged with the school and school council throughout the design stages of this project", despite page 145 of the VSBA Design and Development document noting that "only one design development workshop was scheduled".
- (4) Does the Minister agree with the then Acting Minister for Education, the Hon Gayle Tierney MLC's response to my constituency question of 19 March 2019, that claimed "the school is not losing space" with the refurbishment of the Chilwell Primary School south wing, despite the school becoming 1785 square metres in General Teaching A area, thereby losing 220 square metres of teaching space.
- (5) Why did the refurbishment of the south wing at Chilwell Primary School, as designed, tendered and managed by the VSBA, have an underspend of approximately \$475,000.
- (6) Why did the VSBA ignore the Chilwell Primary School community, given that the underspend would have enabled the school community to construct the double storey building with the solution preferred by the Chilwell Primary School community.
- (7) Why is the school forced to use its hard earned fundraising money to facilitate the project, when there is a budget underspend on the project that does not meet their educational needs now and into the future.
- (8) What role does the Government believe school communities should fulfil in the decision-making process of where building funding is allocated.
- (9) Does the Minister believe consultation with school communities and their elected voluntary Councils is important, and if so, why was there virtually no real consultation with the Chilwell School Council.
- (10) Why has the Minister and the Member for Geelong, Ms Chris Couzens MP, refused to engage in any meaningful manner with the Chilwell School community, who have been patiently and politely pursuing this matter in the interests of their students for over two years.

**431 MRS MCARTHUR** — To ask the Minister for Roads: In relation to the wire rope barriers:

- (1) What is the total expenditure on planning and installation of the barriers from their rollout to date.
- (2) What is the total expenditure on repairs of the barriers.
- (3) What is the total expenditure on all forms of promotional advertising on the merits of wire rope barriers.
- (4) What is the total expenditure paid to research companies to justify the benefits of wire rope barriers.
- (5) What is the budget estimate for future wire rope barrier installation.
- (6) What is the extra cost to wildlife unable to negotiate the placement of wire rope barriers.
- (7) What is the tender process for the wire rope barrier installation.
- (8) What is the justification for double rows of barriers on divided highways.
- (9) What is the total number of motorcyclists who have been injured or killed due to wire rope barriers.
- (10) If wire rope barriers are so effective in reducing the road toll, why has the road toll dramatically increased in Victoria.
